United States Regions Research Project

Task 1: **What natural resources and crops can be found in your region?**

Compose a descriptive paragraph explaining what natural resources can be found in your region AND how these resources impact the United States.

Task 2: What major industries are in your region? The term **industry** covers all the businesses and factories that convert raw materials into goods or that provide useful services. **Industry** produces all the goods and services required by society and distributes them to consumers.

Task 3: Explain and locate historical landmarks in your region. You should include important facts such as the date it was established, the purpose of its creation, and important people who worked on the project.

Task 4: Explain the landforms of your region and how they are important to the people of that region. Locate and explain at least three landforms in your region.

Task 5: Share 3 important facts about your region's culture. Explain the different cultures that make up your region.

Task 6: Explain your region's climate. Describe the climate of region and how it changes throughout the year.

Task 7: MAP: Create a MAP that identifies the states and capitals of your region, major landmarks, locate important mountain ranges and rivers, and include 3 map features (map key or legend, compass rose, inset, scale).

Task 8: Commercial: Create a commercial with your group persuading us to come visit your region. Be CREATIVE and have FUN!
